Practical Teaching Minimum Requirements

Teaching in Supervised Student Teaching Program: minimum of eight student-semester²

Teaching in Piano Lab: minimum of four student-semester²

¹ To be chosen from APST 310 (Intermediate Piano Pedagogy Practicum), APST 311 (Elementary Piano Pedagogy Practicum), and APST 312 (Class Piano Pedagogy Practicum), each of which may be repeated once for credit. A student's practicum credits must include at least two of these three courses.

² One student-semester is defined as one student for a period of one semester. The total may represent any combination of teaching loads over the course of several semesters (e.g., a requirement of eight student-semester might be fulfilled by teaching two students per semester for four semesters, or four students per semester for two semesters). Continuity in teaching the same collegiate and/or young students over a period of consecutive semesters is encouraged.
