Practical Teaching Minimum Requirements

Teaching in Supervised Student Teaching Program: minimum of eight student-semester¹

¹ One student-semester is defined as one student for a period of one semester. The total may represent any combination of teaching loads over the course of several semesters (e.g., a requirement of eight student-semester might be fulfilled by teaching two students per semester for four semesters, or four students per semester for two semesters). Continuity in teaching the same collegiate and/or young students over a period of consecutive semesters is encouraged.
